

HID compatible reader manual

Advantage:

HID Compatible with card reader combines multiple configuration options with an attractive, inconspicuous design and economical price. Its secure potted electronics are ideal for both indoor and outdoor applications.

Technical Parameter

Model.NO	SA-RDDT-5506
Voltage	DC 9-15v
Reader size and color	122 cm x 46 cm x 23 cm Black
Current	<= 50 mA
Frequency	13.56MHZ
Card reading reaction time	100 ms
Card	Mifare card/ PHONE NFC
General reading distance	3-5cm
Data transmission distance	100 meters
Device protection	Power supply converse connection protection
Data line voltage protection	Mostly Stand $\pm 15v$
Working temperature	-15°C 60°C
Storage temperature	-20°C 80°C
IP rate	IP65, water proof

About this item

13.56KHZ-A transceiver unit is designed for reading code from mifare card read-only tags and is a major component in RFID (Radio Frequency Identification) reader system. It can be applied in office/home security, personal identification, access control, anti-forgery interactive toy and production control systems etc..
