

SA-AUDIO215

Speaker Cable 2×1.5 mm²

SAFE EYE

Features:

- High conductivity copper conductor
- Flexible multi-strand design
- Transparent PVC insulation
- Suitable for professional audio systems
- Operating Temperature: -20°C to +70°C

Technical Parameter

| | |
|--------------------|-------------------------|
| Model.NO | SA-AUDIO215 |
| Conductor Material | Bare Copper (BC) / (TC) |
| Construction | 100 / 0.08 × 3 |
| Cross Section | 2 × 1.5 mm ² |
| Insulation | Transparent PVC |
| Structure | 2 Core Parallel |
| Jacket | PVC |
| Color | Standard |

ELECTRICAL CHARACTERISTICS :

- Rated Voltage: 300 / 500 V
- Temperature : -20° C to +70° C
- Conductor Resistance: According to IEC
- Insulation Resistance: ≥ 10 MΩ·km

APPLIANCE

- Used in speaker systems, audio equipment, amplifiers, soundbars, and subwoofers.
- Suitable for stage sound systems, public address (PA) systems, and studio setups.
